Course overview

If you're an adult learner needing a bit of help choosing the right pathway for you, the Victorian Certificate of Applied Learning (Senior) will introduce you to potential apprenticeships, traineeships or further study opportunities.

In this course, you'll gain work-related experience while building your practical knowledge and employability skills. It will also prepare you for successful employment with well-developed literacy and numeracy skills, work-related and industry-specific skills, personal and employability skills, and knowledge that you will need for higher education.

But the best bit about this course is when you enrol, you'll be matched with a level that suits your current abilities before moving on to bigger and better things, so you'll feel comfortable and supported every step of the way.

Taught over a 10-month period, you'll attend classes, workshops and participate in online learning, being taught by our expert teachers in the field you want to enter.

When you complete the Victorian Certificate of Applied Learning (Senior), there are many options for future pathways. Some of these options are entering into an apprenticeship in your chosen industry, as well as part-time or full-time work so you can start earning straight away and gain hands-on experience.

You can also take your learning even further by studying the Victorian Certificate of Education (VCE), apprenticeships and traineeships (school-based or full-time), studying a Certificate II (or above) VET and FE courses, as well as full-time employment. We'll be here to help guide you in the decision-making process when the time comes, because we know these decisions are never easy.

So, if you'd like to kickstart your future today with the Victorian Certificate of Applied Learning (Senior), then we're here to help you take the steps to get there.

This course is delivered with a combination of online and on-campus workshops.
