Yallourn

Course overview

The civil construction industry is set to boom in the coming years, and you could be a part of it. Get your Certificate III in Civil Construction Plant Operations to become a trade-qualified and skilled operator within the civil construction sector. You will master state-of-the-art equipment to complete crucial tasks in your workplace.

As a part of this qualification, you'll learn to apply a broad range of skills to different work situations, using your judgement to make informed decisions. Start working on an endless list of projects, including subdivisions, bridgeworks, railways, sewer systems, harbours, and so much more. Set yourself up for further study or a thriving career in civil construction.

Times

Monday, Tuesday, Thursday, Friday: 8.30am - 4.00pm

Career opportunities

Job roles could include working on subdivisions, bridge works, railways, harbours, sewerage and drainage, electrical infrastructure, and pipeline and recreation works.

Develop experience with a range of equipment such as excavators, front end loaders, rollers and other civil construction machinery.
