Course overview

If your current or future job requires you to disconnect and reconnect electrical appliances, it's crucial that you learn to do this safely and efficiently. This course has been designed for those who are in trades allied to the electrical trade, including refrigeration, appliance servicing, mechanical fitters, plumbing, instrumentation and electronic security.

When your daily maintenance duties involve disconnecting and reconnecting electrical appliances, you'll find this course extremely beneficial. Plus, this is a great qualification to have on your CV. Don't forget to bring your own Insulation Resistance Tester (Analog).

Times

8.00 am - 4.30 pm (7 Sessions)

Qualifications and Recognition

Upon successful completion of the course participants will receive a Certificate of Attainment from .

Specialist Course Information

On the final day, each candidate is required to pass a safe working practice (SWP) practical examination with an ESV approved assessor.

All students should be encouraged to contact ESV (Energy Safe Victoria) Licensing Department to find out what unit of competency is required for their relevant trade on Licensing and registration **1800 815 721 FREE CALL**.

It is not unusual for ESV to not give the student a direct answer. Should these happen please follow below as a guide.
